

W A S H Group.

Here in this section of the western end of the original railway, from St Helen as far as Brusselton Bankfoot NO work on the proposed cycling/walking route has yet begun. This means as far the D C C area is concerned , it lags far behind all other sections, Plus the Northumbria Water supply pipeline that cuts across Peter Raine's farm in Brusselton Wood is behind schedule. On a more upbeat note A big thank you to George and Cindy for hosting our event on Saturday 28th as part of our celebrations. Plus a big thank you to the Teesdale Mercury for their coverage, of our efforts.

E I W P C Group.

The two major events that this group put on during September went off successfully With several nice comments being received and it all been done with a smile. The garden party on 15th was blessed with dry weather. Some 25 folk attended, thank you to Mary Smith for hosting this event and to all those who baked for the day and did the back of office stuff(mainly washing up) On the 19th a successful event was staged in Etherley Community Centre Where sixteen tables were displaying Dr Tom Walker increased the audiences knowledge with his illustrated talk on the Etherley Engine, in its early days.

The group are currently working up a 2025 Calendar.
John Raw Hon Chairman.
